

District 6 Cross Country - Supplemental Rules - 2026

I. General

1. A Cross Country is a meet where rider ability is the determining factor. It is run over dirt roads, fire trails, woods and all

a. The PROMOTER, whose duty is to advise the Referee on matters of rider safety.

2. Any rider holding a pro-motocross license is required to ride the AA class.

3. Rider age shall be confirmed for anyone moving to a specialty class where age is a requirement (Veteran, Senior, Super

Senior, Junior, Mini, Masters, and Peewees, etc.) as requested if protested.

4. An A rider in Enduro must ride A in Cross Country also. B riders in MX can move down a class by switching disciplines, meaning they are C eligible. You could remove that line entirely as we already have rules stated for that situation in the AMA book.

5. The ribboned-off area of the scoring chicane shall be considered a safety area. Any section of the track where an EMT or track worker is attending to a downed rider is also considered a safety area and it will extend to 20 feet either side of the downed rider. If there is a course worker signaling a rider to slow down with hand motions or a flag, the safety area will start at that point.

Once a rider enters a safety area, they are to maintain an even safe speed, without hard acceleration or braking or anything that would kick up avoidable dust or dirt. There should be no passing in the safety zone unless another rider is completely stopped, and it is safe to pass. Failure to follow this rule will result in the rider being docked by one finishing position or more, up to disqualification from the event, subject to the referee's discretion.

II. Event Rules
